RESEARCH PROJECTS 2016

SUMMARY

Between January and November 2016, the Cardiology Department was involved in **118 research projects**: 27 were activated during 2016 and 91 were initiated before and remained live during 2016.

Among the **118 ongoing projects**, 43% were Clinical Studies¹, 23% were Investigator-Initiated Studies, 27% were Clinical Trials, and 7% were Collaborations with external scientific institutions.

Among the **25 new studies**, 44% were Clinical Trials, 37% were Clinical Studies, and 19% were Investigator-Initiated studies.

Beyond the participation in a large number of research projects funded by industry, during 2016 the Department also continued to integrate partnerships with **almost 40 international Academic Institutions and Scientific Societies**.

INITIATION DATE

Table 1. Research projects ongoing during 2016

Initiation date	Frequency
Continued in 2016	91
Initiated in 2016	27
Total	118

Sources of data: GAIC data bases.

¹ Clinical Studies designation includes both Interventional and Non-Interventional Studies

NEW & ONGOING STUDIES: TYPE OF STUDY

Table 2. New and Ongoing research projects, by type

Year	Clinical Trials	Clinical Studies	Collaborations	Investigator - Initiated studies	Total
Initiated in 2016	12	10	0	5	27
Ongoing during 2016	32	51	8	27	118

Sources of data: GAIC data bases.
